USDA: 2009 relief for dairy farmers

▼ Continued from PG. 1

Also, any dairy producer who has an annual average adjusted gross nonfarm income of more than \$500,000 for calendar years 2006 through 2008 is not eligible for DELAP.

For more information and eligibility requirements on the new DELAP program, please visit your local FSA county office or www.fsa.usda.gov.

Through much of this past year, USDA

took a number of steps to provide relief to dairy farmers around the country. Some of these steps include:

◆ USDA reactivated USDA's Dairy Export Incentive Program (DEIP), to help U.S. dairy exporters meet prevailing world prices in addition to encouraging the development of international export markets in areas where U.S. dairy products are not competitive due to subsidized dairy products from

other countries.

◆ USDA spent approximately \$1 billion in fiscal year 2009 on purchases of dairy products (Dairy Product Price Support Program) and payments to producers (Milk Income Loss Contract (MILC)).

◆ USDA increased the amount paid for dairy products through the Dairy Product Price Support Program (DPPSP). USDA estimates that these increases, which were in

place from August 2009 through October 2009, increased dairy farmers' revenue by approximately \$243 million.

◆ In March, USDA transferred approximately 200 million pounds of nonfat dry milk to USDA's Food and Nutrition Service, which will not only remove inventory from the market, but also support low-income families struggling to put nutritious food on their tables.
