

John Sorbello, District 3 State Director

Proudly serving Cayuga, Ontario, Seneca, Wayne and Yates counties

A former Dairyman, today I operate a small farm producing nursery stock for the landscape industry, and fresh market vegetables for my own roadside stands, as well as the wholesale market. My relationship with New York Farm Bureau began around 1983, when I returned home from attending SUNY Alfred. The neighbor down the road invited me to a Kitchen Conference, and I've been a member ever since. Not just a member, but a believer! I sincerely believe that by working together we can achieve so much for rural New Yorkers. This is why I've made it a priority to work on membership in this great organization! From the local and county level, all the way up to the state, and even national level, there is undeniably strength in numbers. We truly need Every Farmer to join Farm Bureau. I've said it often, "I wouldn't want to farm in New York State without a strong Farm Bureau!" Farmers need a voice, and Farm Bureau is that voice!
